

MASTER ENCH

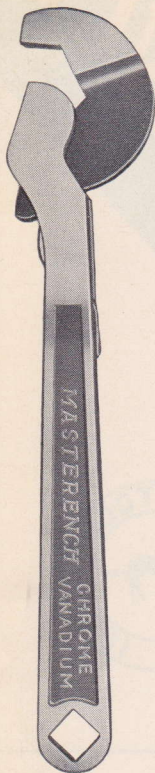

MASTERENCH 3

GRIPS THE

You will marvel at the ease with which it takes hold of nuts in out-of-the-way places, crank case nuts and the like, from almost any angle and give you no chance of slipping. The strong jaws of the wrench and when they take hold you have no trouble or tighten the most obstinate rusty nuts. The Pipe Jaws is self-adjusting, and is inaccessible to other pipe wrenches.

MASTERENCHES—SMOOTH JAWS

Smooth Jaws
for Nuts
and Bolts
